Planning Board Meeting Friday

Local Committees Working on Postwar Projects Covering All of the County

The City Planning Board met Friday night to hear reports of various committee chairmen who were appointed at the organization meeting in November. C. L. Thompson is chairman of the board.

Dr. S. H. Condron reported that five important things were needed by the public schools of Canyon: 1. An industrial building; 2. A band house; 3. Beautification of the school grounds; 4. a cafeteria; 5. Play ground equipment so that the grounds may be used the year around. Dr. Condron pointed to the fact that a large per cent of high school students did not go to college, but entered industrial fields. The public schools should furnish courses which would be of commercial use to the students when they went out to get jobs.

The labor situation in Randall county is very critical, according to a report to the committee by County Agent W. H. Upchurch. 725 men have entered the military service from this county. From indications there will be 150 fewer men available for harvest than were available last year. Mr. Upchurch is taking applications from farmers for laborers, and is placing men as rapidly as they register at his office. A few defense workers have drifted in, and more will come as war plants are shut down. However this source of manpower is uncertain until the war is won.

G. B. Heatn reported progress on the highway situation. The highway department has set up the project of widening the highway between Canyon and Amarillo after the war. His committee has presented the Canyon Dimmitt highway as the most urgent highway for the county. Mr. Heath was appointed from the City Planning Board to take his project. to the State Highway Commission meeting in Austin this month.

Mr. Thompson suggested that the functions of the City Planning Board be widened to include all of Randall county in planning for the future, and he was authorized to take this matter up with the Commissioners Court, City Commission and Chamber of Commerce.

Crop Loans Are Now Available

Emergency Crop Loans, known generally as "the seed loans," are now available to farmers for the production of vitally important food crops and normal crops for 1944, according to announcement of the Farm Credit Administration.

Application for the loans in this county are being taken at the First National Bank each Monday afternoon from 1 p. m. to 3 p. m. under the direction of Field Supervisor W. E. Anderson.

Funds obtained under these loans may be used to cover the general expenses of crop production including the cost of preparing the land, purchase of seed, feed, fuel oil, fertilizer and supplies. A first mortgage on the crops to be financed is the security required.

These loans have been made in this county for a number of years and have proved of great benefit to farmers of limited collateral whose cash requirements are small. The maximum loan to an individual is $400.00. Applicants who can secure loans from banks or other sources are not eligible for "the seed loans."

As in the past, borrowers will be required to plant a large garden for home use and a balanced crop program will be encouraged.

Start Drilling on New Well for City

The test well for the city water department was started this week on the new tract of land recently purchased by the city.

Mayor W. A. Warren states that the contractors can tell in a few days whether an adequate water supply will be available on this new location for the deep well which the city contemplates drilling.

The city is ready to place an order for pipe for the line from the new well to the city plant as soon as the contractors ascertain the water supply. The city was short of water last summer and city officials hope to have the new well in use in time to meet the summer demand.

Mr. and Mrs. Ted Schuler and Warren from Abernathy are visiting in the home of Mr. and Mrs. J. M. Daugherty. Mrs. Schuler who will be remembered as Jewell Greenfield, sister of Mrs. Daugherty, is here taking treatments from an Amarillo physician.

Mr. and Mrs. J. A. Brewer from Childress visited over the week-end with Mr. and Mrs. Lee Foster and Sally.

Dimmit Is Strong For New Highway To the Southwest

G. B. Heath and Clyde Warwick went to Dimmitt Thursday night to meet with citizens of that town regarding the proposed highway from Canyon to Dimmitt. A large number of citizens were at the court house and agreed that this was a vital highway for the future of this section.

A meeting was held in Dimmitt Saturday afternoon with citizens of Muleshoe who were interested in extending the proposed highway on to that town. This highway has been filed with the State Highway Commission as a project for this district. Since Dimmitt is in another highway district citizens of Dimmitt and Muleshoe met the district engineer of the Lubbock District yesterday in order to lay the project before him.

Mr. Heath, who is chairman of the Highway Committee of the City Planning Board, was designated to go to Austin when the Panhandle delegation meets the state Highway Commission later in this month to consider post-war highways. Mr. Heath presented the Canyon-Dimmitt highway project at a meeting held in Amarillo two weeks ago.

Pin-Up Girl Is Named Saturday By W. T. Studes

At the all-college and aviation student dance Saturday night, the students chose Miss Lavada Lanier as West Texas Pin-Up Girl for 1944.

Miss Lanier, better known to her friends as Tuddie, is a small brunette with a pleasing personality and is a Freshman from Amherst.

Second place winner was Miss Nieto Stephens who was escorted by Aviation Student Ryan. Other girls competing in the contest were LaNelle Harmon, escorted by Aviation Student Perkins; Alice Wylie, escorted by Aviation Student Pierce; and Vesta Gamble, escorted by Aviation Student Morris.

The ball room was decorated by Delta Zeta Chi, and the stage was arranged so that as each girl was presented through the white satin curtains she formed a lovely picture. Aviation Student Tallon acted as Master of Ceremonies.

Local Boy Is Promoted on Battle Front Due to Valiant Service in Army

LIEUT JOE W. GILL

2nd Lieut. Joe W. Gill, son of Mr. and Mrs. Robert E. Gill of Canyon, received a battle field commission "Somewhere in Italy" in January.

Lieut. Gill left Canyon with Company F, of the National Guard. He has come up through the ranks to his enviable position.

While attending Canyon High School and West Texas State, Lieut. Gill was an outstanding athlete.

Sgt. Thurman Has Sent Air Medals to His Parents

S/Sgt. Fillman C. (Bud) Thurman, ball-turret gunner, Somewhere in England, sent his Air Service Medal and his Distinguished Flying Cross to his parents, Mr. and Mrs. T. M. Thurman of Canyon, Tuesday.

Sgt. Thurman received his Air Service Medal July 4. His Distinguished Flying Cross, presented ot him December 11, in England, was awarded for his deeds during the November 29, 1943 raid over Bremen, Germany. This raid was Sgt. Thurman's 20th mission.

In writing his mother about his medals, Sgt. Thurman said that lots of hard work lay behind these medals, but they were well worth every bit of it.

Sgt. Thurman, who is 20 years old, has been in the service 19 months, nine of these in England. He trained in Utah and Goen Field, Idaho. When he returns to the states, he intends trying for a pilot's commission.

In his latest letter, he stated that he was starting on a seven-day furlough jaunt through Ireland and Scotland.

Legion Will Aid Discharged Men

All men in Randall county who have been discharged from the armed services are asked to meet with the Palo Duro Post, American Legion, next Monday night at 8 o'clock.

The Legion is seeking to aid all men in securing their mustering out pay from the armed forces, and will have complete information as to the steps necessary for the men to secure this pay.

Variety Show Will Be Given at W. T.

The second All-College Stage Production of the year will be produced Thursday night, Feb. 17, in the Administration Building auditorium of the college. The variety show will be under the direction of M. J. Newman, director of the band, and J. M. Butler, head of the speech department. It is sponsored by the Defense Stamp Committee.

Various solo and ensemble numbers will be featured by both college and aviation students, and the College Stage Band will give several selections.

The public is invited to be present and the only admission fee will be the purchase at the door of a defense stamp of any denomination. The proceeds for the night will contribute to the stamp drive of the College.

STORK SPECIAL

Ensign and Mrs. R. L. A. Clark of Chapel Hill, N. C., announce the birth of a daughter, Janet Ann, on Thursday, January 27. The young miss weighed 8 lbs. and 2 ozs. Mrs. Clark is the former Hettie Lou Bagley.

A daughter was born to Mr. and Mrs. O. D. Breitling, Feb. 8. The child lacked 9 minutes of being born just two years following the birth of the Breitling's son.

A son was born to Mr. and Mrs. Paul Venhaus on Jan. 24.

Now Is the Best Time for Pruning of Grape Vines

Grape vines should be pruned now if damaged from bleeding is to be avoided. The date for doing the job this spring should be a week or so earlier than normal owing to the moisture conditions in the soil and the warm days which followed the snow. It is more important that grape vines be pruned every year than the pruning job on any other fruit vines or trees in this area. If grapes are neglected some seasons and pruned in other years the vines are damaged and the yield of grapes reduced. Further information on grapes will be gladly given to any one interested and help on pruning as time will permit.

Pruning of fruit trees may be done any time during the next several weeks but the grape vines should be pruned during the next week or so.

Soft wood trees, such as, Chinese elms, may be pruned any time from now until June with little difference in the final recovery of the tree, states W. H. Upchurch, County Agent.

Truck Owners to Furnish New Data In Getting Tags

Truck owners are advised that new information must be provided when they buy their 1944 tags at the office of Tax Collector M. E. Cantrell.

This new information includes: Type of commodity hauled; kind of truck, pick-up or panel; type of body; speedometer reading; number of driving wheels; private use or hire.

One copy of this information goes to Washington in order that the government may keep up with the number of trucks in the nation and their use.

Mr. Cantrell advises all truck owners to have this information when they come after their tags.

Thompson Hardware Elected Officers

Stockholders of the Thompson Hardware Company held the annual meeting Friday.

Officers elected were:
President, T. C. Thompson.
Vice President, Mrs. Ora Maxwell.
Secretary-Treasurer, C. L. Thompson.

Mrs. R. M. Gibbs returned home Tuesday after visiting her son, Curtis Hughes, in Oklahoma City. Curtis was inducted into the army January 24, at Fort Sill.

March Call For 39 Take Physical

Large Group will Leave Next Thursday on February Call; Combing List For Men

Randall county will send 39 more men to Lubbock on March 19 to take their physical examinations under Selective Service.

The February group will leave next Thursday afternoon for Lubbock where the men will take their physical examinations. Those who pass will have 21 days before they are sent to Fort Sill for induction in the armed services.

Under the new regulations the men will receive all of their physical examination at Lubbock but will not be inducted into the armed services. They will return home as civilians and will go to the induction center at Fort Sill when called up for military service.

The call next Thursday is for 42 men. A number of these men have been transferred to other towns for the examination. The list of names will not be available until the men have had their physical examinations.

Even though these calls seem to be high, local Selective Service board members point out that they are not so high as some of the counties have received. At least two counties with populations about equal to that of Randall county have received calls for many more men than were called locally.

Three Checks Are Received for the Democratic Fund

Randall County Democrats have been asked to contribute $100 to the campaign fund of the National Committee. County Chairman Clyde Warwick has been asked to collect this sum and forward it to the state chairman.

Three checks have been received, one for $20 and two for $5 each.

All contributions are to be in the hands of the state chairman by Feb. 22. Others wishing to make contributions should send their checks to the News office at once.

Girl Scouts to Enlarge Program

Miss Ida Mae McClure, Field Adviser of the National Girl Scout Staff met Wednesday afternoon with a representative group of adults in Girl Scouting to make plans for enlarging the Girl Scout Program.

Tentative plans have been laid for three Brownie Scout Troops and an Intermediate Troop in the Canyon Grade School and two Brownie troops and an Intermediate troop at the Demonstration School.

For the past few years the Sue Hite Study Club has actively sponsored the Girl Scout organization in Canyon. It is because of the fine ground work they have laid that Scouting is growing so rapidly.

Through the generosity of Frank Phillips of the Phillips Petroleum Co., a full time staff member has been placed in the Texas Panhandle to give service to scout troops leaders and troop committee members.

On Friday at 4:15 in the Dr. Condron class room at the Methodist Church, Miss McClure will meet with five mothers from each troop to form troop committees. The job of troop committees is to help when needed by leaders of troop, and to see that leaders help and meeting places are adequate.

At 5:15 all Intermediate Scouts will meet together for an hour in the Methodist Church with Miss McClure and the Intermediate troop leaders. Singing, a candle ceremony and Scout techniques will form the program.

At 7:30 Miss McClure will meet at the same place to give the first of a series of training round-tables for leaders and assistants in troops. All persons interested are cordially invited to these meetings.

Prof. Frank R. Phillips is to speak on poultry care at the meeting of the Edgetown Home Demonstration Club at 3 p. m. Friday, Feb. 11, in the Council Room of the Home Demonstration Club in the court house. Everyone interested in poultry raising is urged to be present.

William B. (Billie) Baker who entered the navy July 1, 1943, graduated Jan. 22 from the Naval Air Technical Training Center at Norman, Okla., with a rating of Seaman first class. He is now awaiting further assignment.

According to a telegram received Tuesday, Pvt. Neil Cooper is being transferred to a Pre-Radar School in Wisconsin. He has been in training at Clemson, S. C. He was here recently on a furlough visiting his parents, Mr. and Mrs. C. O. Cooper.

Mr. and Mrs. T. S. Stevenson received word that their son, T. S., Jr., a member of the 380 B. Sqd., has been transferred from North Africa to Corsica.

Mrs. H. L. Stone left Sunday night for Riverside, Calif., where she will visit for a few weeks with her husband, Lieut. Stone, who is in training at March Field.

Sgt. Loyd Devin of the Lubbock Army Air Field spent Sunday here with friends. He was formerly a teacher in the Canyon High School.

Mr. and Mrs. W. A. Warren returned Saturday from St. Louis and Chicago where they spent two weeks buying merchandise for their store.

Mrs. John Gay and baby returned to Wichita Falls Monday after visiting with her parents, Mr. and Mrs. H. M. Parker.

Bond Drive Is Short "E" Bonds

Total Quota In Sight, But "E" Bonds Lag; Official End of Drive on Feb. 15

The 4th War Loan Drive comes to an official end on next Tuesday, Feb. 15.

With a quota of $173,000, Randall County has sold $166,577.25 in bonds up to Tuesday night. The quota for the county will be met.

However, the government has set a quota of $122,000 for E bonds during this drive. Randall County citizens had bought a total of $77,156.25 in E Bonds, which leaves a balance of $44,843.75, which must be sold during the Drive if the overall requirements are to be met. The sale of E Bonds throughout the balance of February will be counted on the county's quota.

County Chairman R. H. Wright urges that all citizens who intend to buy bonds during the drive should do so before next Tuesday. He hopes that the quota for E bonds will be met. In case this quota is reached, the county will be far over the total quota as established for the 4th War Loan Drive. E Bonds are the most popular with individual purchasers due to the fact that they pay 2.9% interest, the highest rate that is paid on any government offering. The large companies prefer shorter term bonds than the E bonds which run for 10 years. That is the reason for the quota for the county is nearly over the top, while the E bond quota still lags.

All citizens are urged to buy another E Bond this week in order to push the county's quota on this type of bond over the top before the closing period of Feb. 15.

T. H. Boling, 83, Died at Home of Son in New Mexico

T. H. Boling, 83 years old, a retired farmer of Randall County, passed away Sunday, Feb. 6, while visiting a son, Homer Boling and family of Belen, N. M. Death released him from a stroke he suffered less than two weeks before.

Mr. Boling was born Sept. 27, 1860 at Baldwin, Ga., and came to Texas in September, 1890, settling at Grapevine where he married Miss Eliza Koonce. To them were born three sons: Homer, John and Tom. He moved his family to North Amarillo in 1902, later to Iowa Park, then in 1917 he moved to the home in Randall County south of Wildorado, where he has resided until a year ago when he came to Canyon. He has made his home with his son, John J. Boling and family, since his retirement from active life.

His wife preceded him in death almost 22 years. His youngest son, Tom, passed away a little more than a year ago. He is survived by the two sons and eight grandchildren. The oldest grandchild, Jack Boling, is with the Marines in Portsmouth, N. H.

Mr. Boling has been a Christian in the Baptist church since early in life and has been a member of the Palo Duro Baptist Church for more than 20 years. He lived a calm, serene life, mellowed by love and kindness.

He was laid to rest beside his wife in Llano Cemetery of Amarillo under the direction of N. S. Griggs and sons with Rev. M. G. Upton of Seminary Hill, pastor of the Palo Duro Church, in Charge of the services at the Griggs Chapel on Tuesday, Feb. 8 at 2 p. m.

Mrs. Woodall was born at Evergreen, Texas. Surviving her are four daughters: Mrs. Hattie Williams, Oklahoma City; Mrs. Minnie Bolton and Mrs. Annie Eastes, Dallas; and Mrs. Leslie Tolbert, Happy; one brother Sam P. Copeland, Waco and two grandchildren. The body was shipped to Waco for burial.

Farmers Discuss Conservation Move At Meeting of Committeemen

No Payments Will Be Made For 1944, But Farmers Will Continue the Program

The AAA committeemen from the various communities of Randall County met at the County Agent's office last Tuesday for a general discussion of the Agricultural Conservation Program for 1944. R. B. Gist, County Chairman, assisted by County Agent W. H. Upchurch conducted a round table discussion of all the different phases of the program. The main features of the program were covered as well as many details of administration. It was agreed that even though the acreage control features of the program are not now in operation, because they are not needed, the soil and moisture conservation features are always needed. It was agreed that even though no crop payments or bonuses are being paid in 1944 the farming practices designed to conserve soil and moisture for the maintenance of a continued high rate of food production are necessary.

Randall county farmers used the practices recommended and approved under the program on approximately one-half of the cropland acreage of the county last year.

It is expected that a great deal more use will be made of the program during 1944 on account of a more favorable rate of payment on some of the practices and more liberal specifications on several practices.

Each community committeeman has a copy of the Handbook on conservation practices for 1944 and will be able to furnish any farmer in his community the information necessary for carrying out any conservation practice under the program.

Committeemen attending the were: E. L. Barnett, Raymond Batenhorst, Charles J. Beckman, Ross Craig, C. B. Erwin, Carl B. Fuqua, Jno. L. Hammond, Anton Handing, G. H. Leseberg, B. E. McCormick, L. E. Mason, James Eddie Park, O. M. Scott, J. W. Spencer, L. D. Winn, A. E. Wise, W. O. Turpin, John Bedenk and R. B. Gist.

Taxpayers Are Asked to Render Property Now

All property owners who have not rendered their property for 1944 taxes are asked to call at the office of M. E. Cantrell, tax assessor, and render the same.

Mr. Cantrell states that due to the gasoline and rubber situation most of the property owners may be of great assistance in rendering their property for 1944 taxes by calling at his office.

HAS LEG FRACTURE

Tom Brasher is on crutches as the result of having his right leg fractured three weeks ago.

Mrs. Gerald Warwick returned Saturday from California. Gerald is out at sea as gunner on a torpedo plane in the navy. Mrs. Warwick is at the home of her parents, Mr. and Mrs. J. B. Foster.

Mrs. J. H. Campbell and Louise of Greensboro, N. C., who have been visiting Mrs. Claude White, returned home Monday. Mrs. Campbell made the trip to see her first granddaughter.

Lieut. Robert J. Hibbetts stationed at Blackland Army Air Field, Waco, and his wife send greetings and best wishes to their many friends in Canyon.

R. O. Moore has gone to California where he has secured employment. Mrs. Moore and daughter will remain here until the end of the school year.

Mr. and Mrs. W. J. Wooten left Sunday for Temple where Mrs. Wooten is going through the clinic this week.

Beverly Sol is able to be out again after having been confined to her bed for three weeks following an operation.

The News predicted in December that every available man of military age would be in a training camp by July. The call for 42 men from Randall county in February is followed by a call for 39 men in March. The local board is hard pressed to fill these calls. But the situation is no worse here than in other counties. Veterans of World War I marvel at the intensive training that is given our men in this war. Twenty-five years ago men were called into service and shipped overseas before they knew how to handle a gun. This is not the case in this war. It may look like a lot of time is being wasted in the long training period, especially as you see hundreds of men being transferred and retransferred from one camp to another. The transportation of the nation is overrun with men in service on the move. But let us keep in mind that we have efficient military leaders who are seeking to save as many lives as possible during this war. Men are given long, hard training for a specific job that is before them. This training is not a waste, as the nation needs these men when the war is over, the same as we need them today on the battlefront. There are rumors that training camps will be closed and certain types of work reduced. Naturally this will take place, but no radical reduction in training may be expected until it is assured that the enemy has been whipped. Our military leaders are taking no chances, and the people of this nation do not want them to take any chances which might cost lives.

This is Boy Scout Week. In these days of stress and strain we are apt to forget that a few dollars spent on the Boy Scouts now will save the nation thousands of dollars a few years hence. Boys who are trained in this great organization make good citizens. Delinquents are not to be found among the rank and file of Boy Scouts. While too many people are thinking in the terms of postwar problems, the youth problem is an ever present one, and cannot wait. We must do something to help the boys of today before they become the delinquents and criminals of tomorrow.

Postwar planning for highway construction is one of the essential steps for a county like Randall. It is assured that we shall have many planes owned by local people after the war, which will call for a small but adequate airport. But highways will continue to be the main means of transportation. At the present time one highway is being planned, connecting Canyon with Dimmitt. A highway to the northwest part of the county, and another leading to Wayside would be vital additions to the system of the county.

This is the time of year when chickens do much damage to shrubbery, flowers and garden spots. While there is a city ordinance prohibiting chickens from running at large, the only effective way to keep chickens away from your property is to eat them. Neighbors' chickens always have a delicious flavor.

Russia is making it clear that she expects to dominate at the peace table. All of her republics are being declared as eligible for a vote. This is about the same as saying that the 48 states of our nation should be represented at the peace parley. The world recognizes the fact that Germany would not have been stopped without the indominable fighting spirit of the Russians. Russia believes that we fell down on the job by failing to get supplies to her and by refusing to open the second front. Stalin is no fool when it comes to getting his way, and this latest move is a method of telling the United Nations that he intends dominating the peace terms. Stalin is far from being an idealist, and if he dictates the peace it will be on terms which will wipe out the warlords of Germany. This is the first thing that must be done before a permanent peace may be assured.

T. A. Landers of the McLean News is an expert when it comes to trees and gardennig. He has one of the most beantiful homes in the Panhandle and keeps his trees in excellent condition. He gives the following advice about pruning: "The butchers are taking their toll from shade trees in nearby towns and may be expected to offer their services here. The man who thinks he must pile all the limbs on your lawn to show that he is earning his money is confessing that he knows nothing about pruning. Shade trees need only those limbs taken off that are too low, dead, or rubbing. Property owners should take time off and oversee the 'experts' who attempt to prune their trees."

Those voters who are opposed to a 4th term for the President should consider Governor Thos. E. Dewey of New York. While Willkie is the most active candidate for the Republican nomination, indications are that he is definitely out of the running. He has been too frank in expressing his views on public questions. The Republicans are afraid of him because he has been too close to Roosevelt, and has expressed many favorable opinions of the President. Dewey has a poor personality, but is growing in popularity. The smear-Willkie program of the isolationists throughout the nation is no doubt bearing fruit.

The war is not over by a long way, in spite of the prevailing optimism throughout the nation. We have been making slow progress in Italy. It is indicated that a vital battle is underway, and if the Germans are driven back and Rome taken, the whole of Italy could quickly fall. Hitler is determined to hold out in Italy as long as possible, just as he is determined that his forces shall not retreat any farther from Russia. All of this is costing Hitler many valuable lives—but life is a cheap commodity in the eyes of the Dictator who seeks a place in history for himself, regardless of the cost to his country.

The President complimented Willkie for his opinion that Congress should double the tax request of the administration. Congress rebelled and cut the tax program to one-fourth of the President's request; which would be one-eighth of the amount that Willkie proposes. No wonder Willkie is unpopular with the Republican leaders who are looking to a gum-shoe politician like Senator Taft as the most likely candidate.

The public should be steeled to the certainty that the Japs will use gas before the war goes much farther. They have used gas against the helpless Chinese. Their inhumane treatment of American and British prisoners of war indicates just how brutal the Japs can be, and clearly shows that they intend stopping at nothing in order to stop the drive of the United Nations.

This winter has been a hard one on paving. The fact that ice stayed on the ground so long, with constant melting and freezing has been hard on all types of paving. In Canyon we have many blocks of caliche paving with black top. This pavement has suffered greatly all over town, and unless it is repaired as soon as spring weather comes, large sections of streets will have no pavement.

AGRICULTURAL RESEARCH DEVELOPMENTS

Impressive research results that have come out of the laboratories, field notes, and experimental kitchens of the Department of Agriculture include the release in a single year of 35 new varieties of strains of crop plants, stepping up production of penicillin, developing method by which sheep can dose themselves for intestinal worms by taking worm medicine in their salt, curing Cheddar cheese in half the time previously required, revolutionizing ways of fighting insect scourges, and developnig recipes so that new soybean products may be used to supplement scarcer foods.

RECORD EGG CROP EXPECTED

Three out of every four eggs to be produced in 1944 have been allocated to civilians, the War Food Administration announced. The anticipated supply of eggs this year, possibly exceeding 61 billion, is based on the potential production of the greatest number of laying hens on record in the United States.

AUTOS, BICYCLES, TIRES, GASOLINE

February quota of new passenger automobiles is 10,000, two-thirds of the January quota, and of new bicycles is 7,500, one half the January quota, the Office of Price Administration has announced. Except for a decrease of approximately one-fourth in the number of used and reclaimed (grade III) passenger tires, February quotas for tires and tubes are about the same as for January. Essential truck operators in areas where tire recapping facilities are inadequate or unavailable may obtain a ration certificate permitting them to exchange with dealers a tire which needs recapping for a used tire or a new "war" tire. Automobile drivers hereafter will find that the purpose for which they drive, rather than the distance they drive will determine their eligibility for tires. Motorists may now use indelible pencil as well as ink to write their license numbers and state of registration on each gasoline coupon. Motorists must now present their tire inspection records when applying for special gasoline rations.

LABOR NEEDS OF AGRICULTURE

The largest single increase in total labor requirements is the seasonal demand in agriculture, according to a recent War Manpower Commission survey of the nation's manpower needs for the first half of 1944. Between January and July about 3.4 million persons will be needed for farm employment. The bulk of this labor will be supplied by women and young persons.

MORE RAISINS AND LESS CHEESE

An additional 54 million pounds of raisins from the 1943 pack are being released for U. S. civilian use, by WFA. This action makes 336 million pounds of raisins released to civilians from the 1943 pack. Cheese supplies in 1944 will be divided so as to make available for civilians about four pounds per capita, or one pound less than they received during 1943. About five million more pounds of cheese have been allocated to U. S. servicemen than they used last year, an increase necessary mainly to provide milk nutrients for the larger number of soldiers overseas.

FARM MACHINERY PRODUCTION

Farm machinery production for the year beginning July 1, will be about the same as for the current year, but the War Production Board warns that the recent schedules issued may be altered any time should circumstances demand such action. More than one million tons of carbon steel production is now tentatively earmarked for the American farmer.

CONSIDER USE OF WAR PRISONERS

Possibilities of using prisoners of war in farming and industry in U. S. areas where free labor is not available have been studied by representatives of WMC and the War Department. Limited use of prisoners on farms was begun last summer. The employer is required to pay the wage prevailing in his community, and the prisoner gets credit of 80 cents a day for personal expenditures, the remainder going to the government for camp maintenance.

ROUND-UP

WFA says dairy payments at present rates will be continued up to February 17, and beyond that they will depend upon congressional action. . . . Cider vinegar will cost approximately three cents a quart more at retail. . . . A 20 per cent increase—under a new OPA regulation to compensate processors and packers for increased raw material costs. . . . Local rationing boards may now issue an interim coupon sheet enabling a consumer to buy fuel oil while OPA investigates the loss or theft of his ration sheet. . . . Retail prices increases per pound of three cents for sea scallops, five cents for lemon sole round, and 16 cents for lemon sole fillet are expected as a result of wholesale price increases allowed by OPA. . . . Manufacture of 400,000 aluminum pressure canners, one size holding seven one-quart glass jars, and another size holding 14 one-quart jars, has been authorized by WPB, provided there is no interference with munitions manufacture. . . . Civilians will get slightly more edible fats and oils products per person in 1944 than they had on the average in 1935-39, according to WFA. They will get slightly less butter, however. . . . OPA predicts a larger supply of lower-priced rayon knit garments and lower prices for a better quality in such garments. . . . Rather than make loans for purchase of farm laind at inflation prices, Farm Security Administration County Committees have been instructed by FSA to turn back their money. The action was taken to insure that the program will protect applicants from acquiring land debts that would ruin them later on.

"So can your boy be proud of you!"

"You've earned some sort of medal yourself, I'd say, for giving lots of us drivers safe warning. Good thing you kept harping on rationing. You said limited driving couldn't keep clearing out the rank acids always left from combustion; they'd linger and corrode the engine. But you said that plating, of course, wouldn't soon let metals corrode. And you convinced me, all right, about keeping my engine OIL-PLATED with your patented Conoco Nth oil. Now my OIL-PLATED engine is seeing me through, and I say good for you!... helping the home front! They all should know how Conoco Nth gives engines protective OIL-PLATING!"

The *how* of it is that Conoco Nth motor oil—popular-priced—includes a costly modern synthetic. Its strong "power of attraction" fastens and maintains the OIL-PLATING on inner surfaces. Despite engine inactivity, the unavoidable acids aren't "working right through" the OIL-PLATING, and so the wartime risk of corrosion is cut! The more extras you're doing to hustle the boys home, the more you need your car and Your Mileage Merchant's Conoco Nth. OIL-PLATE today. Continental Oil Company

An instructor said, "Figures never lie. For example, if one man can build a house in 12 days, 12 men can build it in one day." To which a student replied, "And 288 men could build it in one hour, 17,280 in one minute and 1,036,800 in one second." As the instructor gasped, the student added, "If one ship can cross the Atlantic in six days, then six ships can cross it in one day."—(From "The Emancipator.")

Political notes: Judge Clyde L. Garrett of Eastland is reported considering running for the seat he formerly occupied in Congress. . . . Rep. John Connelly of Trenton is expected to ask for re-election. Connelly and Rep. Klingman actively sponsored and urged soldier vote legislation during the regular session—a subject in which a lot of politicians have suddenly gotten interested in the last few weeks. Reports around Austin are that the Lieutenant Governor may run for Governor. He and Governor Stevenson have had a wide divergence of opinion on the advisability of a special session on soldier voting and the Lieutenant Governor has carried the difference into the public print.

Engagement of Miss Martha Miller Is Announced Here

Mr. and Mrs. Henry Miller of Canyon are announcing the engagement and approaching marriage of their daughter, Martha, to Technical Sergeant Adolph E. Kampen, son of Mr. and Mrs. August Kampen of Poynette, Wis.

Miss Miller is a graduate of West Texas State College and is employed at Amarillo Army Air Field. Sergeant Kampen is now stationed at Hendricks Field, Fla.

Mr. and Mrs. Miller entertained with an informal dinner at their home in Canyon last Sunday to honor their daughter.

Attending were Mr. and Mrs. George Algers, Mrs. Bob Bruce, Bob Albers, Misses Clara and Elizabeth Miller, Sgt. Adolph E. Kampen and the honoree.

MRS. ROBINS HONORED BY HEIZER AND JENNINGS

Mrs. Lynn Heizer and Mrs. John Jennings honored Mrs. Robert Robins with a bridal shower Thursday afternoon at 2:30 o'clock in the home of Mrs. Jennings.

Upon the arrival of Mrs. Robins an Army Slang game was played. Mrs. A. B. Haynes won first prize which she presented to the honoree.

A letter addressed to Mrs. Robins, Treasure Island, Hunt County, gave her the clue to start on a hunt. After finding seven different clues hidden in the living room, she was lead into a bedroom closet where she found a red, white and blue covered cart filled with presents done in red, white and blue wrappings.

After Mrs. Robins had opened the packages and passed the gifts around the group, a Nautical Quizz game was played.

Guests were invited into the dining room for refreshments. The table was laid with a lace cover. A blonde doll, carrying a bride's bouquet, wearing a white satin bride's dress and a long white veil, and standing on a large round mirror surrounded by flowers inside a red, white and blue wreath, made the centerpiece.

Coffee, sandwiches, nuts, candy and individual white cakes, iced in red, white and blue and bearing miniature flags, were served.

Educational System of Europe Wrecked by Nazi Influence

Because the entire educational systems of Nazi dominated countries in Europe have been overthrown and destroyed, the Allied countries will be faced with tremendous problem and responsibility after the war. This is the conclusion of Dr. A. M. Meyer, speaking at the Lions Club luncheon Tuesday.

Dr. Meyer stated that the Axis first destroyed the existing systems of education, then built up a new system through which they indoctrinated the young children. All parents and children who did not cooperate were either killed or sent to concentration camps.

In this process of change, 50,000 leaders in education have been killed by the Germans. It would take one million books to provide each class in Poland alone with two books. In Greece 24 towns have been completely destroyed. Schools for 150,000 children must be rebuilt and re-equipped in Greece.

Norway has resisted the Nazi system of education. Because of this fact, all men in the University and almost all members of the faculty have been taken to concentration camps. At present thousands of Norwegian children are without schooling.

In China enormous numbers of schools have been practically destroyed.

Dr. Meyer asked what the allied nations will be obliged to do about the problem of rebuilding education in these countries. He described a commission which has been set up in London with Dr. Gilbert Murray, of Oxford University, as chairman. This commission proposes an International Office of Education. It is working on the answers to three questions, (1) What can be done to restore the educational systems in countries conquered by Germany, (2) What must be done in Germany, and (3) What must be done in building the post-war system of education.

In the opinion of Dr. Meyer, the United States and Great Britain will be mainly responsible for solving the problem and he believes that the United Nations should bear the cost. He stressed that the people of the United States must take an international viewpoint of the situation and learn to tolerate others point of view.

Lions Clay Cooper, Gus Miller, and A. K. Goodman were presented keys from the national organization signifying that they are key members. To become a key member, a member must sponsor two new members of the club in one year.

E. L. Hardaway, of the Phillips Petroleum Company was a guest of Lion Ed Williams.

Clay Cooper was in charge of the program.

THE WOMAN'S BOOK CLUB MET WEDNESDAY

Mrs. C. M. Dowlen and Mrs. Nancy McCaslin talked to the Woman's Book Club when they met yesterday in the Thompson Club Room. Mrs. Dowlen discussed the very interesting subject "Who shall handle the soldier vote?" Since Mrs. McCaslin was ill her paper was ably read by her daughter, Miss Elizabeth McCaslin. Her subject was "Jobs for the G I Joes—or the Returned Soldiers." Both of these reports were very interesting.

The following members were present: Miss Irene Angel, Mrs. C. C. Armstrong, Mrs. Alfred Bellah, Mrs. C. R. Burrow, Mrs. Ray Campbell, Mrs. S. H. Condron, Mrs. Harris M. Cook, Mrs. C. M. Dowlen, Mrs. J. A. Hill, Mrs. I. C. Jenkins, Mrs. T. H. Knighton, Miss Elizabeth McCaslin, Mrs. Clyde McElroy, Mrs. C. A. Murray, Mrs. D. A. Nicklaus, Mrs. J. W. Reid, Mrs. Irvin SoRelle, Mrs. Fred Standley, Mrs. A. W. Sternenberg, and Mrs. H. H. Butler.

METHODIST MISSIONARY MEET HELD TUESDAY

The Methodist Missionary Society met in regular study hour Tuesday afternoon. Mrs. Clyde Warwick led the study, "The Church After the War."

On Tuesday, Feb. 15, the Society will meet with Mrs. D. A. Nicholas for a regular monthly "World Outlook" program. A social hour will follow the study period to honor Mr. Nicholas' sisters, Mrs. G. E. Thompson and Miss Iza B. Nicholas, Dunlap, Iowa.

Mrs. Penick and Miss Penick spent the past week end as guests of Mr. and Mrs. L. B. Penick at Lefors, and Mrs. L. G. Penick of Phillips.

Miss Estelle Penick spent last week in Amarillo with Mr. and Mrs. C. M. Ford and family. Mrs. Ford will be remembered as Marsene Penick.

Bobbie Word went to Oklahoma City Monday, to take tests for entrance into the navy.

Dr. Roy L. Johnson and Bob Kilgore attended the annual Panhandle Pastor's and Laymen's Bible Conference at Plainview Monday and Tuesday of this week. Dr. Johnson presided as president of the conference. He was succeeded in office by J. D. Riddle, Director of Education and Music at the First Baptist Church in Lubbock.

John Noble of Muleshoe spent the week end here with his family.

Jekyll-Hyde Presidents Reveal Thought of Terrible Dislikes

Although they are supposed to be plenty all right people even presidents have their likes and dislikes. How about diving into their personalities to uncover their dislikes?

Jimmy Lindsey, our short stocky seventh grade leader, vows that he hates spinach worse than nothin'. His only excuse is "it's just too slick." Easton Wall, eighth grade prexy, just plain can't stand study hall because: first, he doesn't get to sit where he wants to, and second, he can't always use the books he needs to prepare his lessons (taking it for granted that's what he wants them for).

McDonald Dislikes Algebra

Ray McDonald, the chief of the sophomore group, has as his pet peeve—algebra. "It's just one big mess of too many factors to deal with. My slow brain just can't absorb all that stuff." Unquote! Helen Jo Cox, senior president, can't stand two-faced women because—here it comes—it shows weakness of character and they are hard to get to know. (Wonder what she thinks of two-faced men?)

Don Standley, basketball player plus junior executive, doesn't care for people talking without permission in class meeting. In much plainer English—beating their gums when they should be taking it all in while the old crowd is in session. According to this fellow they not only ruin the meeting but ruin their own reputations.

Gooch Detests Crowds

This next doesn't come as a complete shock to anyone. Frances Gooch, that vivacious freshman first lady, doesn't enjoy joyriding on that streamlined (???) bus of hers. In fact—now everyone get this—she says it rattles, is air-conditioned (not in the usual manner however) and about fifty happy school children too many ride it each day. In other words, it's too crowded.

These are the artistic morons in our midst. Don't you now agree they are just plain everyday simple-minds like the rest of us?

Sanders Teaches Course In Code

Radio code is the newest course added to the curricula of Canyon High School. This course is offered to anyone taking manual training and is instructed by Milton Sanders.

This pre-induction instruction will prove invaluable to anyone going into the service, especially those interested in radio. It will also be an asset after the war, as it is used in peace as well as in battle on land, sea, and in the air.

At the present time the class is studying the Continental Code.

WHY WORRY?

Defeated and downcast, many students drooped dejectedly down the halls of old Canyon High School last Thursday and Friday, reflecting disgustedly on the semester tests taken (supposedly flunked) and those yet to come.

Some were so sleepy from trying to cram foreign knowledge in little-used brains, that they were unable to put down what little they did know. (If you don't believe this, just ask the teachers.)

Some flunked, some passed, and yet most (not all) worried and flung grim and gruesome looks at fellow-students who obviously didn't need them at all.

This epistle is hereby dedicated to those superintelligent (?) students who at least had enough sense not to act as though the gruesome ordeal were their doomsday. Well, maybe it was, but a pleasant smile was so unusual and so seldom seen that one gloomy gus expressed a wish to photograph one and preserve it for final exams.

Seriously, maybe a few honest pupils have learned their lessons, and will start cramming at least four nights before exams and six-weeks tests, anyway.

Note: The moral of this story is; if you must flunk, at least do it gracefully. It's not going to help to worry, so just do better next time and only gripe when alone.

Amateurs Present Mystery-Farce

Horrible happenings with historical origin are the main features of the senior class's non-royalty play, entitled "Demon in the Dark" and written by Barry Colbert.

Never before in the history of class plays has such chilling action and breathtaking suspense been brought together in one play to be given to the citizens of Canyon. Mysterious disappearances of main characters and ghostly action hold the audience spellbound up to the stupendous climax.

Determined to uphold the age old tradition that the senior class is able to cope with anyone on any matter, the '44 class is going to try to make this a play never to be forgotten.

As soon as the play books arrive, the sponsor, Mr. W. G. Sanderson, and two other teachers will pick the cast and then rehearsals will start immediately.

Eagle Quintet Subdues Calves 31-26

Traveling Entices Fowler's Fancy

Tall, attractive Mrs. Ewell W. Fowler is the new homemaking teacher who comes to Canyon High School from Amarillo. Blue eyes, brown hair, and sparkling white teeth give a description of this new comer.

Mrs. Fowler was born in Indiana, reared in Texas, while her present home is Charleston, Illinois. She received most of her education in Texas, including two high school years and four college years at West Texas State College, but earned her Master's Degree in Iowa. Before coming to CHS, Mrs. Fowler taught in Amarillo, two summers at W. T., and Friona, besides a "few other little places."

Mrs. Fowler enjoys traveling, as may be surmised by the preceding data. Her work and hobbies are caring for her children and homemaking. She likes Canyon High School very much, feels at home, and has already discovered several old friends.

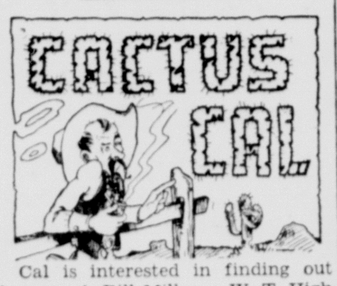
A three and one half year old son, a fifteen month old daughter, and a husband who has just been drafted into the army comprise the rest of Mrs. Fowler's family.

Students Increase Club Enrollment

There seems to be a growing interest in agriculture among the students of Canyon High School. Twenty new members have been added to the roll of the Vocational Agriculture I class.

Interest is also being shown in the district meeting which will take place Saturday at West Texas High School. A demonstration of meat cutting, in which the entire department will participate, will be given by the Canyon High boys.

"I am quite pleased with the addition of so many new students to the Agriculture Department. Maybe with such interest expressed by boys all over the nation, the food shortage, which is now prevalent over the United States, will be lifted," said W. G. Sanderson, advisor.



Cal is interested in finding out how much Bill Miller, a W. T. High Junior, lost on the basketball game Friday night. How about it, Bill?

The old horseback spirit seems to have revived. Eugene Hardman and Maxine Barnard had a galloping good time the other night.

It seems that Ruth Lill, Fannie Pierce, and Billie McAtee are taking the withdrawal of Jack McBroom from their English class quite, quite seriously.

Shirley Newberry has donated her gold locket to Raymond Aardal for the duration. (I don't know what duration, but they seem to have it pretty bad.)

Cal heard that Mrs. Simms, thinking it was her own door, started to lock Mrs. Gilmore in her room one afternoon, and would have succeeded, had it not been for Mrs. Gilmore's hurried objections.

Making an ole flame new again is Norma Zachry, who has been seen quite frequently with an ex-student, Arthur Duncan, Jr.

The word "candy" in India means a 500-pound weight. Some dieting ladies are of the opinion that it means about the same thing here.

The Girl Scouts were organized in America in 1912 by Mrs. Juliette Low.

You set the goal; now live up to it!

Students of Canyon High School, on January 28, a unanimous vote was cast setting the goal of War Bond and Stamp sales at $75,000 in order to purchase a Mustang fighter plane. This goal must be reached before Canyon High School can keep its word and live up to the high standards others before us have set.

Several students seem to have the attitude that his small amount will not be of service; therefore, the responsibility is left up to others. If everybody shirks his duty and his PRIVILEGE, who is going to carry on and achieve the goal the student body as a whole set?

You set the goal; now live up to it!

GRADE NOTES

In spite of the fact that the grade school is also recuperating from semester tests, several of the classes accomplished additional tasks along with their studies last week.

Talents were exhibited in the units of the 6D class, under the direction of Mrs. John Davis, and in Mrs. L. M. Cousins' fourth grade.

Mrs. Cousins' students tried out their artistic hands by drawing pictures of an amaryllis from one that was in full bloom in their class room. Many astonishing results and outstanding pictures were completed.

Acting took the lead in the 6D section when a five act play of Lincoln was written and presented to the group Friday afternoon.

In order to create a larger interest in reading, Mrs. W. E. Miller's class has started a list for the state reading certificates. Thirty books must be read and reports given by each pupil in order to get this award. Mrs. Miller is planning a chart showing the progress of her pupils.

Leaders in Mrs. A. K. Goodman's third grade spelling class are Carol Marie Rose and David McDuff who have recently been promoted to lieutenant generals. These pupils have not missed a spelling word on any test this semester.

Visiting Mrs. T. W. Collins over the week-end were her daughter, Mrs. Frank Spring, formerly Ethel Ruth Collins, and children from Friona and Mrs. J. C. Fuller from Plainview, Mrs. Collins' sister.

To celebrate the closing of the semester, five hostesses served the 5J group, under the direction of Mrs. Mitchell Jones. These hostesses were Billie Louise Thompson, Mary Jane Neill, Opal Joyce Brandt, Patty Sue Ford and Latrice Kiker.

Valentine preparations are under way in all the rooms of the grade school, but a completed project is the post office in Mrs. Bob Orton's first grade room. Other projects in keeping with St. Valentine's Day are being prepared for this annual occasion.

Ewelldine Evans enrolled once again in school after a long illness.

Lucy Marie Hollabaugh, who has just recovered from a case of chicken-pox, returned to Mrs. Bob Orton's first grade Monday along with Jean Davis, absent due to a tonsillectomy.

Did You Know that . .

Lorena Turner, senior, has had an outstanding talent in music and has won several awards in that field.

James Meroney, freshman, has won three medals in diving and swimming.

A second cousin of Margaret and James Lair, juniors, is a missionary in Africa and is expected to be in Canyon in the near future.

Charles SoRelle, senior, is quite interested in aeronautics. Having completed his solo flight in the spring, he is now in the more advanced techniques of flying.

Billie Turner, sophomore, lettered in basketball at Stinnett and was queen of Stinnett Public Schools.

Earl Locke Neff, junior, was mascot of the Buffalo football team back in the days of his youth and has a letter to prove it.

Joan Byars, freshman, is gifted with the ability to sing, specializing in the ever popular swing.

R. C. Hillier, father of Kathleen and Charles Hillier, was born in England and spent all his boyhood days there.

Leader Introduces Varied Program

Conducted in a strictly Latin-American manner, the Canyon High School Spanish Club holds its regular meetings every two weeks under the direction of two previously designated "Espanol" students.

President Peggy Gene Head starts things rolling by calling the meeting to order and presenting old and new business. After the reading of the minutes, she turns the meeting over to the students in charge who have prepared some special program. This program may consist of the Pledge to the Flag along with varied reports on Latin-American countries and customs, spelling matches, or the singing of such songs as "Alla en el Rancho Grande," "La Cucaracha," and "Donde a Donde."

Sponsor Mrs. Dan Sanders leaves things to the complete charge of the students, and unless her assistance is needed, sits in the back of the room and merely watches the proceedings.

Among such famous nick-names as "Eddie" Standley, "Jockey" Winn, "Whingding" Taylor, "Bull" Dowd, and "Horse" Taylor that will go down in school history there is now to be added another. "Chief" is the name Tommy Thompson is fondly called by most of his friends.

Coach Sanders is anticipating a thrilling game with some of the Army personnel and students from the College in the near future.

If you are a generous person or know of one who can take his car to Dumas Feb. 17 and 18 to district tournament, please let Mr. Speer or Coach Sanders in on it. Gas and oil will be paid for and all the boys will appreciate it very much.

A big question going around among the basketeers is: Who is going to letter and who is not, and what kind of jackets shall we get? They are also wondering who is going to the District tournament at Dumas.

Some of the students are still wondering why the boys didn't accept that ride from those two girls at the Dimmitt tournament. You weren't keeping up the old Canyon High spirit.

Just a note to the boys. It is a good thing that there is a wire to keep people off the floor in the Dimmitt Gym. Otherwise we may have lost one of our first string players.

Knott Admirers Say Teacher Is "Solid"

"Morning, Glory."

"Evening, Star."

"Boy, Mrs. Knott, you catch on quick and answer almost every time."

Laughingly, Mrs. Knott replied, "I have to humor a little to get along with you, Tommy."

Believe it or not, this is the sort of greeting exchanged by Mrs. Knott and Tommy Thompson during the first period class every school day. Just as soon as the brilliant (?) student steps into the room before classes begin for the day, Tommy cries out, "Morning, Glory," and is immediately replied by "Evening, Star."

Perhaps it seems senseless to some but we must admit this special "hello" sends the plane geometry class off smoothly and merily, mixed in with that required study and work.

Now we know what this teacher's admirers mean when they call their Mrs. Knott "solid," with all respect.

Journalists Frolic Monday Evening

As an added attraction to the regular Monday meeting, Virginia Reid, former reporter, entertained the staff in her home Monday evening after the paper had been "put to bed."

Refreshments of cokes, pop corn balls, and wheat wafers were served to the journalists who sang songs, told jokes, proposed toasts, and dramatized skits from movies during the hour of "fun and foolishness."

Dutch ovens in early American homes were little brick ovens built in the side of open fireplaces, for baking.

Standley Scores Greatest Tally

Half Finds Eagles Leading Opponents by Six Points

Clashing for the second time this season, the Canyon Eagles met the W. T. Calves in a fast-moving, breath-taking game which ended with the Eagles on the long end of a 31-26 tally.

Sports spotlight was focused on Leslie Gordon, center; Eddie Standley, and Spence Winn, forwards; and Charles Taylor and Max Bosley, guards, who composed the starting line-up for the Eagle Quintet.

Eagles Double Tally

At the end of the first quarter, the score was tied 8-8. Fast playing on the part of the Eagles during the second quarter doubled their tally while the Calves were held down to a two-point progress. Pushing even further along in the third quarter, the Eagle hoopsters gained an additional eight points and brought the score up to 24-14. Final blowing of the whistle found tired but victorious Eagle squad with seven more points to their credit.

High point Eagle squadman with five field goals was Don Standley, who was followed closely by Max Bosley with eight points.

Standley Is High Scorer

Dale Russell led the Calves' quintet with four field goals and one free pitch. Billy Miller was runner up with seven points.

Second-string Eagles were victorious over the Calves' B team with a score of 20-13. Kenneth Vaughn stood in the lead as high point man with seven points, while Spicer and Service, of the Calves, tied for high-scorer, each with six points.

HERE IS HOW YOU CAN HELP

1. Cook whole meals in oven. Cook "one-dish" meals on top burners.
2. Don't use running hot water for washing dishes or hands. Repair leaky faucets. Heat no more water than necessary.
3. Do not keep your home too warm. You can save gas and have more healthful living conditions by maintaining moderate temperature.
4. Reduce temperature at night and when away from home.
5. Keep all gas-burning equipment in first-class condition.

USE LESS NATURAL GAS
and Conserve Fuel for the War Effort

The perspiration on the brows of Hitler and his gang these days is not caused by overheated rooms.

Let's keep the heat on them, by doing everything we can to back up our fighting men.

One of the things we at home can do is to conserve natural gas, a vital war fuel.

To do your part in saving fuel—use less gas today and every day.

GAS IS VITAL FUEL
USE IT WISELY

PUBLISHED IN SUPPORT OF THE GOVERNMENT'S PROGRAM TO CONSERVE VITAL FUELS FOR WAR PURPOSES

V-NEWS

1. Why I must practice conservation at home. Unless I, as a consumer, learn to conserve the goods I now have, or which are available to me on the retailer's shelves and in the factories of the nation, I am reducing the nation's strength by the amount I consume unnecessarily or wastefully.

2. Eliminate non-essentials. I must face the fact that for the duration I must limit myself to the minimum essentials necessary to maintain health, strength, and family morale.

There are many things which I will not need to get along if I am willing to produce goods at home or perform services for myself.

Use goods sparingly and handle with care. I can make my clothes last longer by wearing the kind most suitable to the job I am doing, especially if the job is hard on clothes, also by caring for them as well as using them carefully.

4. Avoid waste. The garbage pails, wast baskets and junk heaps of the nation are evidences of great waste in the past. Now all labor and machinery is needed directly or indirectly in the military forces or in war industries.

Psychology Test Tuesday at the Rotary Luncheon

Levi Cole was in charge of the Rotary Club program Tuesday. He introduced Mitchell Jones, past president of the Lions Club, who gave a demonstration on psychology. He called for 25 words from the audience and was able to repeat these words as called for by the luncheon members.

Clarence Thompson reported on the sale of War Bonds. He brought a message from R. H. Wright asking that all citizens buy bonds this week in order to meet the county's quota.

Visitors were: Geo. Waddill, A. D. Steed, Ed Broome, Bob Forough, Irving Tolzein, Arthur Osgood, Roy Borger, all of Amarillo.

Department of English Has Annual Dinner

Friday, February 4, the English department held their annual dinner in the home of Dr. B. F. Fronabarger. Miss Marie Fronabarger acted as hostess. There were fifteen present including Miss Mattie Swayne, Miss Novella Goodman, Mr. Ardis Patman, Miss Agnes Charlton, Mr. and Mrs. Travis Shaw, Dr. and Mrs. A. Kirk Knott, Mrs. Geraldine Green, Miss Nell Green, Mrs. Fronabarger, and Misses Marie and Elva Fronabarger.

The dinner was provided by the group. The menu included baked ham, candied sweet potatoes, beans, olives, celery, hot rolls, coffee, country butter, cherry pie and whipped cream, beet pickles, and jam and jellies. Much of the dinner represented activities of members of the English department experienced last summer. The cherries and beans, for instance, were canned by members of the group.

The house was decorated with sweet peas and mixed flowers. As one member of the group said of the dinner, "a good time was had by all, and there was no sign of the proverbial English inefficiency."

Invited, but unable to attend the dinner was Miss Willie M. Claxton, a winter guest at "Rest Cottage."

W. T. Plans To Buy a Jeep

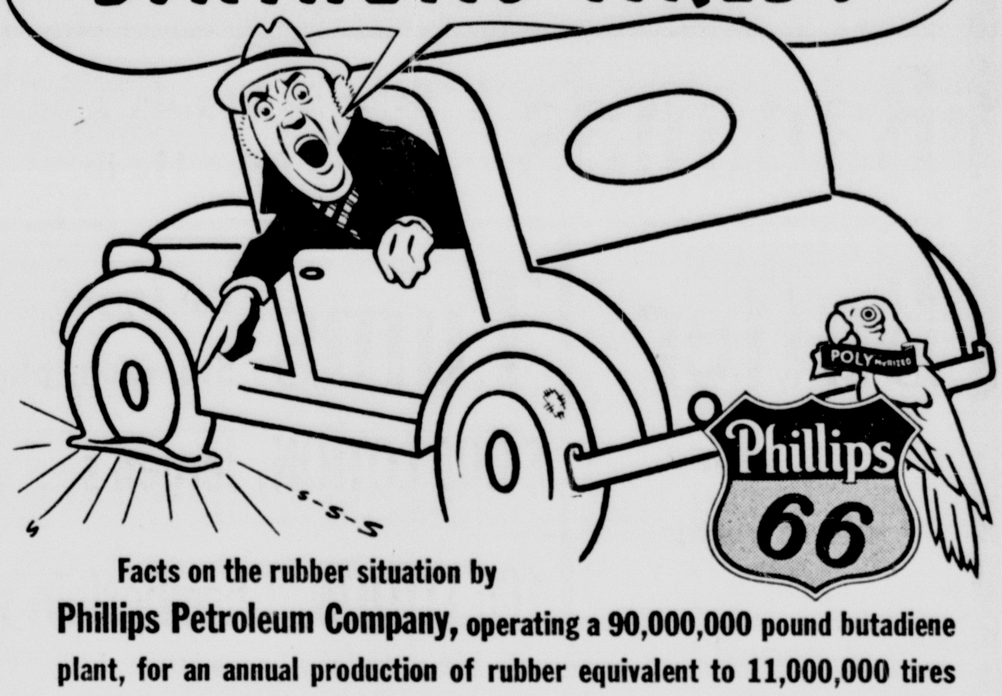
Bond Drive Will Start With Variety Show, February 17

West Texas State is going to buy a jeep. A goal for the college has been set for the spring semester, and the cooperation of every student and faculty member will be required to make this new record for buying defense stamps and bonds. The object is to make the sales high enough that they will finance the buying of a jeep for the Army.

To start the drive off, the Defense Stamp Committee will sponsor a Victory Variety Show, Thursday night, February 17. This program will feature many numbers by college students, and will be under the direction of Mr. M. J. Newman, director of the band, and Mr. J. M. Butler, head of the speech department.

College students, faculty members, and Canyon residents are invited to see the Variety Show. Admission will be the purchase of one defense stamp of any denomination. The defense stamps sold that night at the door will aid in the purchase of W. T.'s jeep for the Army and will contribute to the Fourth War Loan Drive.

WHEN WILL I GET SYNTHETIC TIRES?



Facts on the rubber situation by

Phillips Petroleum Company, operating a 90,000,000 pound butadiene plant, for an annual production of rubber equivalent to 11,000,000 tires

THE RACE FOR RUBBER is right now entering the homestretch. Swiftly and surely, the nation's synthetic rubber plants are approaching peak annual production of 850,000 tons:

Despite this record-breaking achievement, the next six months are the time of crisis, because the full fighting power of rubber is needed for war: Tires for planes, and combat trucks and cars . . . rubber for life rafts and landing boats . . . rubber for bullet-sealing tanks and electrical insulation : : : rubber for a thousand and one victory needs.

This is why only the most essential civilian drivers can be supplied with new tires of synthetic rubber at least until late in the year. The rest of us must continue to save miles and rubber, and recap *in time* to keep rolling.

As a major producer of butadiene (the chief ingredient in synthetic rubber) and 100 octane aviation gasoline, the Phillips Petroleum Company presents these facts as a contribution to general understanding of the present transportation problem.

With us, as with every American motorist, the needs of war come first. But when victory is won, car owners will begin enjoying the benefits and product-improvements flowing from Phillips *gigantic chemical plants*, devoted to producing new and better things from *petroleum gases* as well as petroleum. Phillips Petroleum Co., *Bartlesville, Okla.*
